

B. Asish

9014508853 | asish.bhavani@email.com | LinkedIn | GitHub

Summary

Aspiring AI/ML Engineer with hands-on experience in Machine Learning, Python, and data preprocessing through academic and self-driven projects. Skilled in building ML-based applications using Python, Streamlit, and FastAPI. Interested in Generative AI, Prompt Engineering, and AI-powered automation. Strong analytical and problem-solving abilities with a willingness to learn modern AI technologies.

Experience

ICICI Bank — Deputy Manager

Apr 2025 – Present

- Worked with structured datasets and workflow management systems.
- Performed data validation and operational analysis.
- Handled customer issue resolution and process coordination.
- Gained practical exposure to business operations and analytical problem-solving.

Projects

Fake News Detection System — Python, Machine Learning, FastAPI

- Built a machine learning model for detecting fake news articles.
- Performed text preprocessing and feature extraction using Python libraries.
- Integrated prediction APIs using FastAPI.
- Maintained project version control using Git and GitHub.

ML-Powered Assistive Technology — Python, Streamlit, Machine Learning

- Developed an ML-based assistive solution for cognitive and mental disability support.
- Worked on multi-modal data preprocessing and emotion analysis workflows.
- Built an interactive Streamlit interface for real-time interaction.
- Published in ICONSTEAM Conference Proceedings indexed in IEEE Xplore.

Technical Skills

Programming & AI

- Python
- Machine Learning Basics
- Prompt Engineering
- Generative AI Fundamentals

Libraries & Tools

- NumPy
- Pandas
- Scikit-learn
- Streamlit
- FastAPI

- Git & GitHub

Databases

- SQL
- MySQL

Soft Skills

- Analytical Thinking
- Communication
- Problem Solving
- Team Collaboration

Education

Sathyabama Institute of Science and Technology

B.E. Computer Science and Engineering

2020 – 2024 | CGPA: 8.3

Certifications

- Machine Learning with Python
- Python Programming
- FastAPI & REST API Basics
- Generative AI Fundamentals (Recommended Next)

Publications

- Published research on ML-powered assistive technology in ICONSTEAM Conference Proceedings indexed in IEEE Xplore.
- Worked on accessibility-focused AI solutions using machine learning techniques.
